

February 18, 2024

Sergio Falcone
Director of Capri Campus

Dear Sergio Falcone,

I hope this letter finds you well. Following our recent meetings and conversations, I am pleased to inform you that the Provost of New York City College of Technology has formally approved the proposed collaboration aimed at the development of a summer study abroad program. This exciting initiative is set to commence in the summer of 2024, allowing our students the invaluable opportunity to immerse themselves in the rich cultural and educational environment of Italy, specifically with the support of Capri Campus.

The approval from our Provost is a testament to the mutual dedication and effort invested in fostering an international partnership that promises to enrich the academic and personal growth of our students. Attach please find the proposed schedule, which we believe is thoughtfully designed to maximize the learning experience while also providing students with the time to explore and appreciate the beauty and historical significance of Rome, Naples and Sybaris.

We are confident that this summer study abroad program will mark the beginning of a long-lasting and fruitful partnership between New York City College of Technology and the Capri Campus. It is our hope that this initiative will not only enhance the academic prowess of our students but also foster a deeper understanding and appreciation of global cultures.

Thank you for your continued support and enthusiasm towards this collaboration

Warmest regards,

Lia Dikigoropoulou
